## **Flowing water for the Forno – even in winter**

### **We sell Forno-water**

An efficient water supply is vital for the maintenance of a SAC-refuge. For years we have been fighting in the refuge against the increasing water shortage due to the climate change and retreat of glaciers. Thanks to the installation of two water tanks we hope to ensure the all-season supply of water.

It is planned to install two storage tanks containing 11.000 liters in the close surroundings of the refuge. The water does not freeze because the tanks are placed underground. Together with the existing tanks with a capacity of 15.000 liters, we will soon have at total of 22.000 liters of fresh water at disposal. Thus, while the refuge is hosted, the winter toilet is redundant. The costs of this project amount to approximately 30.000 Swiss Francs. That is why we are looking for sponsors who are willing to purchase some water of the planned water tanks. Your name is going to be eternalized on our donators' board.

### **Get 10 liters of Forno-water for 14 Swiss Francs.**

We thank you for your donations!

You can buy your Forno-water at [christoph.wick@bzbu.ch](mailto:christoph.wick@bzbu.ch), Christoph Wick, Holderweg 12, 9470 Buchs, 081 756 17 32. PC Schweizer Alpen-Club (SAC), Section 9400 Rorschach, 90-2883-6.
